Art Unit: 2152

1. Claims 1-16 are pending in this application.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following words or phrases are not clearly understood, rendering the corresponding claim vague or indefinite:

a) "sending a second registration message for the remote unit to the SIP registrar", claim 1, line 4, and claim 15, line 8. It is unclear if the second registration message is sent by the same SIP proxy UA that sends the first registration message, or another SIP proxy UA;

b) "receiving, in response to the second registration message, a response", claim 1, line 5, and claim 15, line 9. First, it is unclear why a response is received for the second registration message, and not also for the first registration message. Second, it is unclear who is receiving the response, the remote unit, the SIP proxy UA, another SIP proxy UA;

c) "indicates contact address more recent than any provided by the SIP proxy UA", claim 1, line 6., and claim 15, line 10. First, it is unclear how any contact address is provided by the SIP proxy, is it through the first registration or the second registration.

Art Unit: 2152

Second, it is unclear how it is determined that the contact address is more recent. Third, it is unclear if the same SIP proxy UA provides contact addresses, including the more recent;

d) "sending, in response to the received response, a deregistration message for the remote unit to the SIP registrar", claim 1, lines 7-8, and claim 15, lines 11-12. It is unclear who is sending the deregistration message, the same SIP proxy UA, another SIP proxy UA.

e) "indicates contact address more recent than any provided by the first SIP proxy UA", claim 10, lines 14-15. First, it is unclear how any contact address is provided by the SIP proxy, is it through the first registration message. Second, it is unclear how it is determined that the contact address is more recent.

4. Claims 1, 10, and 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. Claim 2-9 and 11-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Claim 16 is allowable.

Art Unit: 2152

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
